JUSTIFICATION:

A guideline harvest objective of 1-2 points (male goats = 1 point, female goats = 2 point) was established by ADF&G for the area described above. As of Wednesday morning, November 20, 2013 two male goats have been harvested for a total of 2 points. Due to the vulnerability of goats in this area and the likelihood of additional harvest an emergency order has been issued. Those portions of Unit 1D not affected by this emergency order, and not previously closed by emergency order, will remain open until the harvest guidelines are reached or the seasons come to their scheduled conclusions.
