Eklutna Management Area Moose Hunt RM445 Closes in Unit 14C

(Anchorage) – Registration permit hunt RM445 for bull moose in the Eklutna Lake Management Area (Game Management Unit 14C) will close at one minute before midnight on October 2, 2014, by emergency order of the Alaska Department of Fish and Game. Anchorage Area Wildlife Biologist Jessy Coltrane said four bull moose were reported taken as of Oct. 1 from a population of approximately 80 animals. The take of four bulls is consistent with the goal of maintaining appropriate bull-cow ratios and moose numbers in this hunt area.

All other moose hunts in GMU 14C are unaffected by this emergency order.
