**JUSTIFICATION:**

The last aerial survey resulted in a minimum count of 399 goats within mountain goat hunt area RG252. The department set the maximum allowable harvest at 20 goat units. Each billy counts as one goat unit, each nanny counts as two goat units, and an unrecoverable goat counts as 1.5 goat units. The current harvest is 10 billies, two nannies and one unrecoverable goat, totaling 15.5 goat units with additional hunters remaining in the field. This closure is necessary to prevent unsustainable harvest.
