JUSTIFICATION:

Based on survey information, a guideline harvest objective of 8-9 points (male goat=1 point & female goat=2 points) was established for the middle portion of the Takshanuk Mountain Range. As of Thursday, October 8, 2020, 6 goats have been harvested in this area, including 4 male goats (2 points), and 2 female goats (2 points) for a total of 8 points. In addition, snowfall last winter was 45% above the long-term average and may have increased winter mortality. Due to the vulnerability of goats in this area to additional harvest beyond the guideline harvest level, an emergency order (01-16-20) is being issued to close the goat hunting season in the middle portion of the Takshanuk Mountains at **11:59 pm on Friday, October 9, 2020.**
