Subject: Michael Crawford, Kenai/Soldotna Advisory Committee

Dear Members of the Joint Boards:

Michael Crawford was recently found guilty of a wildlife violation involving wolverine trapping out of season. Under 5 AAC 96.060, he should be removed from his position on the Kenai/Soldotna AC, however this has not happened.

The Alaska Wildlife Alliance urges you to:

1. Take action to have him removed from his seat in order to protect the integrity of advisory committees statewide and in order to make sure that wildlife decisions are being made by law abiding Alaskans;
2. Take action to prevent ACs from keeping wildlife offenders on their committees.

Wildlife management is serious business. Alaskans and people everywhere else must be able to respect those making wildlife management decisions in our state.

Sincerely,
Tina M. Brown

President
Alaska Wildlife Alliance
