Dear Chairman Johnstone and Members of the Board:

**Please support proposals 44 to 53 repealing
the setnet permit stacking sunset provision.**

**I hae been setnnetting in the Nushagak Districk for 28 years,
and I have recently purchased a second permit to make my
operations safer by not having a permit in a crewmwmber's
name. I am more efficient with two permits, one boat, and
side-by-side sites. This adds to higher quality, better
production, and the ability to operate two sites more
economically and more efficiently.**

**Please keep permit stacking in Bristol Bay. No one is
harmed, and it keeps hardworking setnet fishermen safer.**

Thank you for your consideration.

Tom M. Rollman, Sr.
