

RC141

Proposal 18

I support the substitute language in RC127 on proposal 18

I withdraw my support for an allocation for the Ugashik Set net area 321-50 RC 119 as management is aware of the issue and we have come up with some options to address the issue that can be done under current regulations. I also do not have enough data to ask for an allocation as some years there market issues. I will continue to monitor and collect more data and if needed I will come back to the board in the future on this issue.
