

Requested Change to AAC 24.378: Submitted by Mike Collins

Fish Spotting Regulation

Current Regulation

During open commercial salmon fishing periods, no person may use an aircraft to locate salmon for the commercial taking of those fish or to direct commercial fishing operations.

For clarification, request change to read:

Aircraft are allowed to fly any time as long as they comply with Federal Aviation Administration rules. However, no person may use an aircraft to direct boats to fish or communicate in aiding boats to catch fish during an **open** fishing period in an **area** that is open.
