RE: Proposal 275
Grossi sites on West Side Kvichak

~~I fished on the West side for many years. I witnessed the cash purchase and transfer of the Grossi West side site at one time. It was the first one after the district line. I saw the Grossi family using the site throughout the years.~~

Once again, the change of the district line from its historic position seems unnecessary and a little arbitrary given the short distance of the movement and lack of relationship to any land or water features.

The Grossi family has a long three generation history of set net in the district. I would ask the Board to move the line back to its historic position and give relief to the Grossi and Armstrong families.

Harlan Bailey, board member, Kvichak Set Net Assoc
