# **Meeting Summary Notes**

# Unit 22 Southern Norton Sound

SUPPORT WITH AMENDMENT (Jan 23, 2015)

Amend to close caribou season south of Golsolvia River; then defined as Unalakleet River to Area Biologist.

Also to have the option to reopen the southern area when caribou do migrate into the area again.

[Amend to "Closed; season to be announced by emergency order" for area south of Unalakleet River].

## **Unit 23 Kotzebue Sound**

SUPPORT WITH AMENDMENT (Jan 6, 2015)

Close the non-resident season completely

Close bull caribou take from October 15 - January 15 when they are in rut and poor shape

Increase dates of cow season closure (from May 16 to April 15), so cow season would be closed from April 15-June 30

### Unit 23 Noatak-Kivalina AC

SUPPORT WITH AMENDMENT (Jan 6, 2015)

Close non-subsistence hunter take

Close bulls October 15 - Jan 15

Close cows April 15 -- June 30

SUPPORT WITH AMENDMENT (Feb 11, 2015)

- 1) ACR: Require spacing of non-subsistence user camps 3-5 miles apart so that caribou can cross the river in their migration.
- 2) ACR: Let 1,000 caribou pass the Noatak River before any non-subsistence hunters can come to the Noatak River.
- 3) ACR: Extend the boundaries of the Controlled Use area to Makpik Creek, extending the CUA approximately 20 miles beyond the current boundary

#### **Unit 23 Northern Seward Peninsula**

SUPPORT WITH AMENDMENT (Jan 6, 2015)

Cow closing date of April 15 rather than May 1.

Bull season closing on October 15 rather than October 1

The Northern Seward Peninsula committee discussed the caribou proposal at a as previous meeting and heard comments, including one from Stephen Ballot who said the proposed bag limit of five per day was good. They agreed on a <u>closing date of April 15</u> rather than May 1 for cows. For the <u>bull season closing</u>, the group recommended October 15 rather than October 1. Everyone on the Buckland Advisory Committee agreed on no sports hunting.

SUPPORT WITH REVISED AMENDMENT (Feb 10, 2015)

Bull season closing on October 10 rather than October 15

# Unit 23 Upper and Lower Kobuk AC

SUPPORT WITH AMENDMENT (Jan 28, 2015)

Amendments to resident caribou hunting seasons:

- 1) Limit on caribou 7 for the federal and 5 for the state daily.
- 2) We want to close the bull season for both residents and nonresidents: October 7-April 15 close bull season
- 3) October 8-April 30 open cow season

# **Unit 24 Koyukuk River AC**

SUPPORT WITH AMENDMENT (Jan 27, 2015)

Cow closing date of Feb 15 - Oct 1

Large bulls with antlers closed after Oct. 1 (or trophy value destruction)

Antierless bulls open after Oct. 1

Young bulls without shovels open after Oct. 1

# Unit 26 North Slope AC

SUPPORT WITH AMENDMENT (Feb 5, 2015)

- 5) Jan 1 Mar 15
  - 5 caribou a day

-no more than three of which can be cows

-no calves.

- 6) Mar 16 Jul 15
  - 5 bulls a day
  - -no cows
  - -no calves
- 7) Jul 16 Oct 15
  - 5 caribou total per day
  - -no more than three cows per day
  - -no calves
  - -No cows accompanied with calves may be taken
- 8) Oct 16 Dec 31
  - 3 caribou total per day
  - -Cows only
  - -No Bulls
  - -No Calves

## WACH WG COMMENTS:

SUPPORT WITH AMENDMENT (Feb 4, 2015)

Unit 22: No change to nonresident seasons

Unit 23: cows closed: Apr 1 – Jul 31

Southern Unit 26A: cows closed: Apr 1 – Jul 31

Unit 22

Do not change the season for nonresident caribou harvest. The proposed change to August 1 - September 30 is not sensible for Unit 22, as caribou are typically not in the area during the proposed season. Offering a two-month season when caribou are usually absent may mislead nonresident hunters to plan hunts at a time when they might encounter reindeer, which are not legal game. Keeping the existing nonresident season will be less confusing to nonresidents attempting to hunt caribou in Unit 22. The Working Group supports the proposal in Unit 22 to eliminate calf harvest, eliminate nonresident harvest of cows, and limit nonresident harvest to one bull.

Unit 23

Extend the cow closure period that prohibits the resident take of cows to April 1- July 31 (longer than the current closure dates of May 16 - June 30). This change will reduce harvest of pregnant and lactating cows, increasing calving rates and calf survival. Change the season date for nonresident hunting of caribou to September 15 - October 10. These dates will give the first caribou in the fall migration the chance to cross the major rivers in Unit 23 (e.g., Noatak River, Kobuk River) prior to the onset of intensive nonresident hunting activity. The amended start date also matches the September 15 date used in the National Park Service's Commercial Use Authorizations for the start of guide and transporter operations. The Working Group supports the proposal in Unit 23 to eliminate calf harvest, eliminate nonresident harvest of cows, and limit nonresident harvest to one bull.

Southern portion of Unit 26(A)

<u>Prohibit the resident take of cows from April 1 - July 31</u>. This change will reduce harvest of pregnant and lactating cows, increasing calving rates and calf survival.

# Northwest Arctic RAC (Mar 9, 2015)

SUPPORT WITH AMENDMENT (Feb 4, 2015)

No harvest of cows Apr 1-June 30;

No harvest of cows with calves Jul 1-Oct 10

No harvest of bulls in rut Oct 10-Jan 30

FSB Proposal to change federal subsistence harvest limit from 15 caribou per day to 5 caribou per day

Notes from ADF&G Liaison Team

The NWA RAC just completed a draft letter to BOG re: their comments & recommendations on BOG Proposal 202 (i.e., <u>No harvest of cows Apr 1-June 30</u>; <u>no harvest of cows with calves Jul 1-Oct 10</u>; and <u>no harvest of bulls in rut Oct 10-Jan 30</u>) and development of a federal wildlife proposal to reduce the Unit 23 caribou <u>federal subsistence harvest limit from 15 caribou per day to 5 caribou per day</u>. Updated agenda attached (\*.docx).
