

I have talked to some board members and I would like to put forth additional thoughts on proposals 28 & 29.

Before each board meeting the BOG & BOF put out a road map by region. Each board should take the Advisory Committees in the region testimony prior to the deliberation of that regions proposals. As the boards deliberate, the AC's should be at the table with the boards to answer questions relating to their proposal. I hope this clears up what intentions we may have. We feel this should be in regulation to be sure it happens.

To keep it clean, committees outside the region can attend other regions, but will be called on at the boards **discretion** if any questions arise.

Thank you for allowing me to add to the meeting.

Sue Entsminger
